

# DRII BCLE 2000 TRAINING

## Business Continuity Management

This brand new version of Disaster Recovery Institute International (DRII's) seminal course, **Business Continuity (BCLE2000)**, enables students to build a business continuity program based on the most up to the minute information and the most utilized and time tested standard in the field because the DRI International Professional Practices for Business Continuity Management are just that. Newly revamped and long the leading standard in our profession by a mile, the Professional Practices are the foundation upon which this four-day, in-depth, hands-on course is built.

Instruction includes all ten Professional Practices detailed below, including new and expanded coverage of cloud computing, cyberthreats, supply chain, risk transfer, insurance considerations, legal and regulatory requirements, and manufacturing processes, as well as more traditional topics such as evaluating risks, gaining leadership buy-in, crisis communications, and program audit. An experienced instructor using real-world examples and interactive workshop exercises will walk students through the key elements of business continuity management, making this the perfect course for those who are relatively new to the profession and want a thorough, leave no stone unturned educational experience.

The participatory nature of the course immerses students in the learning process, enables them to learn by doing, and ensures that they leave having outlined a firm foundation for their program that is specific to their entity. Additionally, the course, as well as the revamped supporting material provided to every student, is designed to give them all the tools they will need to pass the new Qualifying Examination and continue on the path toward becoming a DRI Associate Business Continuity Professional (ABCP), Certified Business Continuity Professional (CBCP), Certified Functional Continuity Professional (CFCP), Certified Business Continuity Vendor (CBCV) and Master Business Continuity Professional (MBCP).

### Qualifying Examination

- Every certified professional, and vendor must take and pass the Qualifying Examination before they can apply to any level or designation for certification. The Qualifying Examination is step one of a two-part certification process. DRI International administers the only professional Exam in Business Continuity Planning.
- The Qualifying Examination consists of a multiple-choice format test covering the subject areas of the Professional Practices for Business Continuity Management. It takes 2-1/2 hours to complete the exam and requires a passing grade. Successful completion of the examination qualifies an individual to subsequently apply for any level of DRI certification. The fee for the Qualifying Examination is included in the price of the BCLE 2000 DRI International training course.

### DRII Certification

The completed course and successfully passed qualifying examination will enable students to meet the requirements for the following DRII certifications:

- Associate Business Continuity Professional (ABCP)
- Certified Business Continuity Professional (CBCP)
- Certified Functional Continuity Professional (CFCP)
- Certified Business Continuity Vendor (CBCV)
- Master Business Continuity Professional (MBCP)
